

Covid-19 Statement

EMB Group and its subsidiary companies are committed to the health and safety of our employees, clients and contractors at all times and no more so than in this current challenging climate. We are closely monitoring the official advice given by the World Health Organisation and Public Health England to ensure we are undertaking the right precautions as well as adhering to Government guidelines for all aspects of our working environment.

We are vigilant in ensuring all of our staff and others working for us have been fully briefed and are constantly updated on the ongoing situation. In line with the latest Government advice we have issued guidance on specific measures that should be taken whilst attending external sites to hold meetings, undertake audits or work with others. This includes hygiene practices in relation to keeping safe. To ensure those working for us are safe while attending external sites we will be asking our clients, partners and contractors to confirm that they are Covid-19 secure. This will be managed through a pre-assessment checklist which will be sent out in advance of any meeting and on return retained securely.

The health, safety and well-being of all of those who work with and for us, as well as the clients we support, is always our priority.

As the Covid-19 crisis is continually evolving, we will continue to develop our approach in line with Government guidelines and keep all of our stakeholders updated.

Stephen Smith
Chief Executive, EMB Group Ltd
